CAREERS DAY

Saturday | 25 October 2025 | 10h00 – 12h00

Lecture theatre T2, T-Block, Westville Campus, University of KwaZulu-Natal

Dear Principal/ Teacher/ Coordinator,

We are excited to invite your school to our Maths, Statistics and Computer Science Careers Day, taking place at the University of KwaZulu-Natal on Saturday 25 October 2025.

This event is designed for learners in Grades 9–11 who are curious about the world of mathematics, statistics, and computer science. The day will include engaging talks and interactive sessions introducing each field, highlighting their real-world applications, and showcasing the diverse career opportunities available to learners who pursue a degree in these fields.

Our aim is to inspire learners to make informed subject choices, strengthen their understanding of how these disciplines shape our world, and encourage them to see the exciting pathways open to them in higher education and beyond.

Who should attend? Grade 9, 10 and 11 learners interested in STEM

We would be delighted to host your learners and teachers for this exciting day of exploration and discovery.

For enquiries please contact:

Dr Cerene Rathilal - RathilalC@ukzn.ac.za

Dr Danielle Roberts - Robertsd@ukzn.ac.za
